PERSONAL PORTFOLIO WEBSITE

Sanepalli Sai Nandhini

CSE-AIML Student | Aspiring Developer

Technologies	HTML5 and CSS3 only
Sections	Home, About, Skills, Projects, Contact
Included	Complete source code, browser screenshots, setup instructions, submission checklist

This all-in-one PDF includes actual browser-rendered screenshots and the complete HTML and CSS reference. The ZIP package contains the original editable source files.

1. Project Description

I developed a responsive Personal Portfolio Website using HTML5 and CSS3 as part of my HTML & CSS internship project. The website introduces me and presents my educational background, technical skills, projects, and contact information. I used semantic HTML, CSS Grid, Flexbox, hover effects, and media queries to create a clean design that works on desktop and mobile screens. This project helped me improve my web development skills and understand responsive website design.

2. How to Run the Website

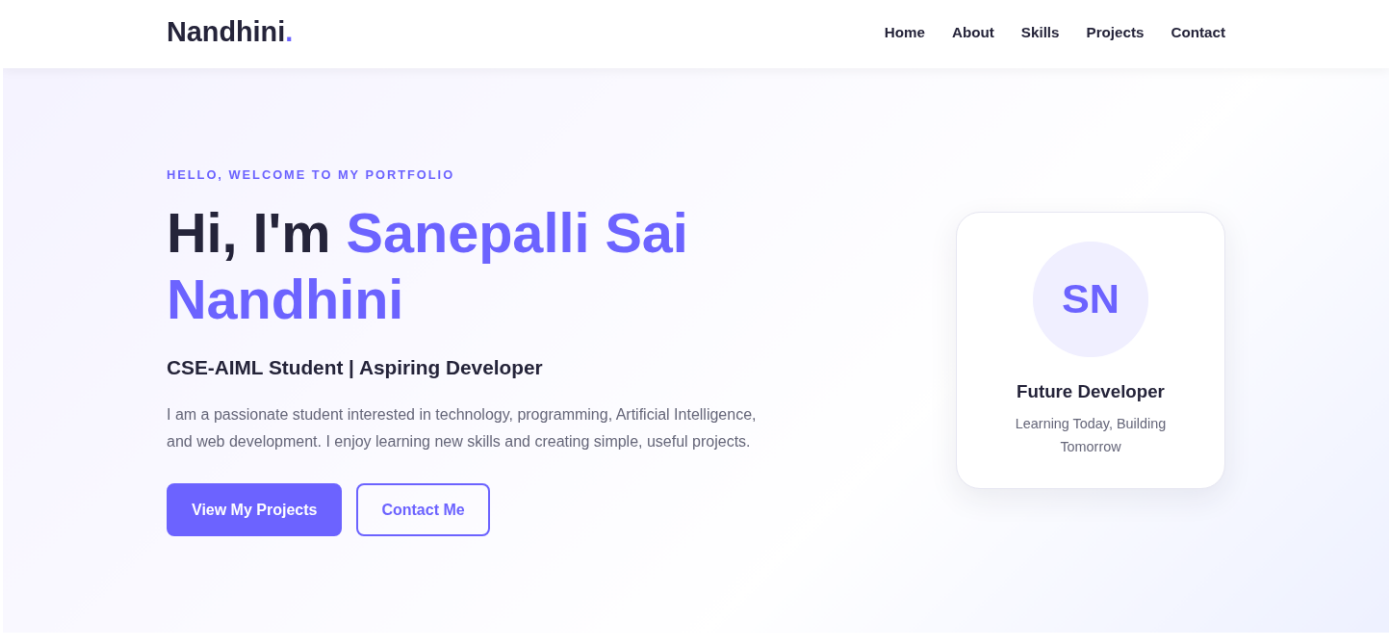

1. Extract the ZIP file into a folder named Nandhini_HTML_CSS_Portfolio.
2. Open the folder in Visual Studio Code, or open index.html directly in Chrome or Microsoft Edge.
3. Keep index.html and style.css in the same folder.
4. Check the navigation links and test the site at desktop and mobile widths.
5. Before submitting, verify the email address, LinkedIn and LeetCode links, education details, and project descriptions.

Screenshot Notes

Screenshots were captured by rendering the provided HTML and CSS in Chromium at desktop viewport size 1440 x 1000 and mobile viewport size 390 x 844. The screenshots cover Home, About, Skills, Projects, and Contact in both layouts. They show the current website design and are not placeholders.

Important: The project brief listed 16 October 2026 as the submission deadline. This document was generated on 21 October 2026, so confirm with the internship coordinator whether late submissions are accepted.

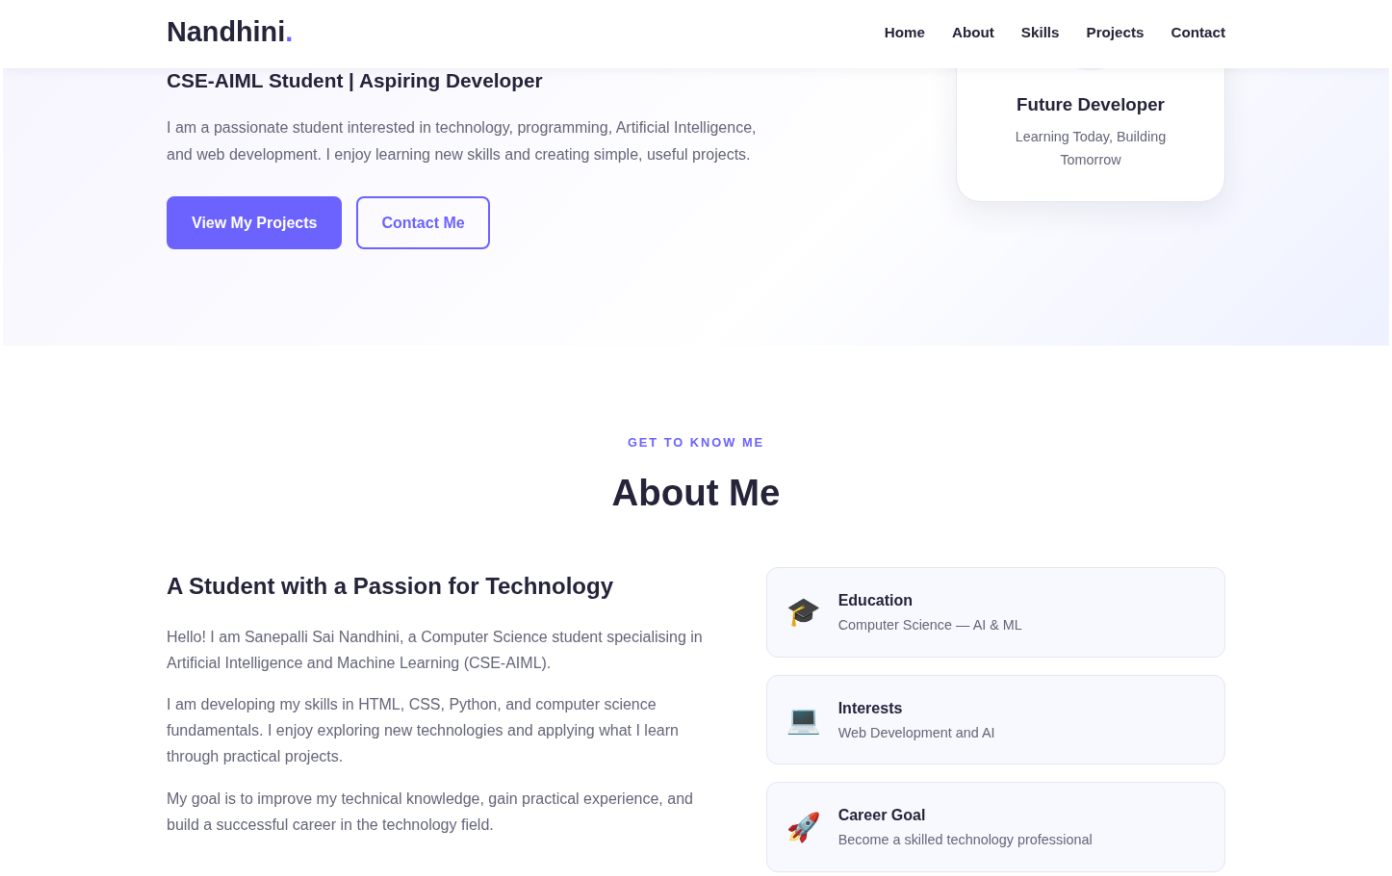

3.1 Desktop Screenshot - Home

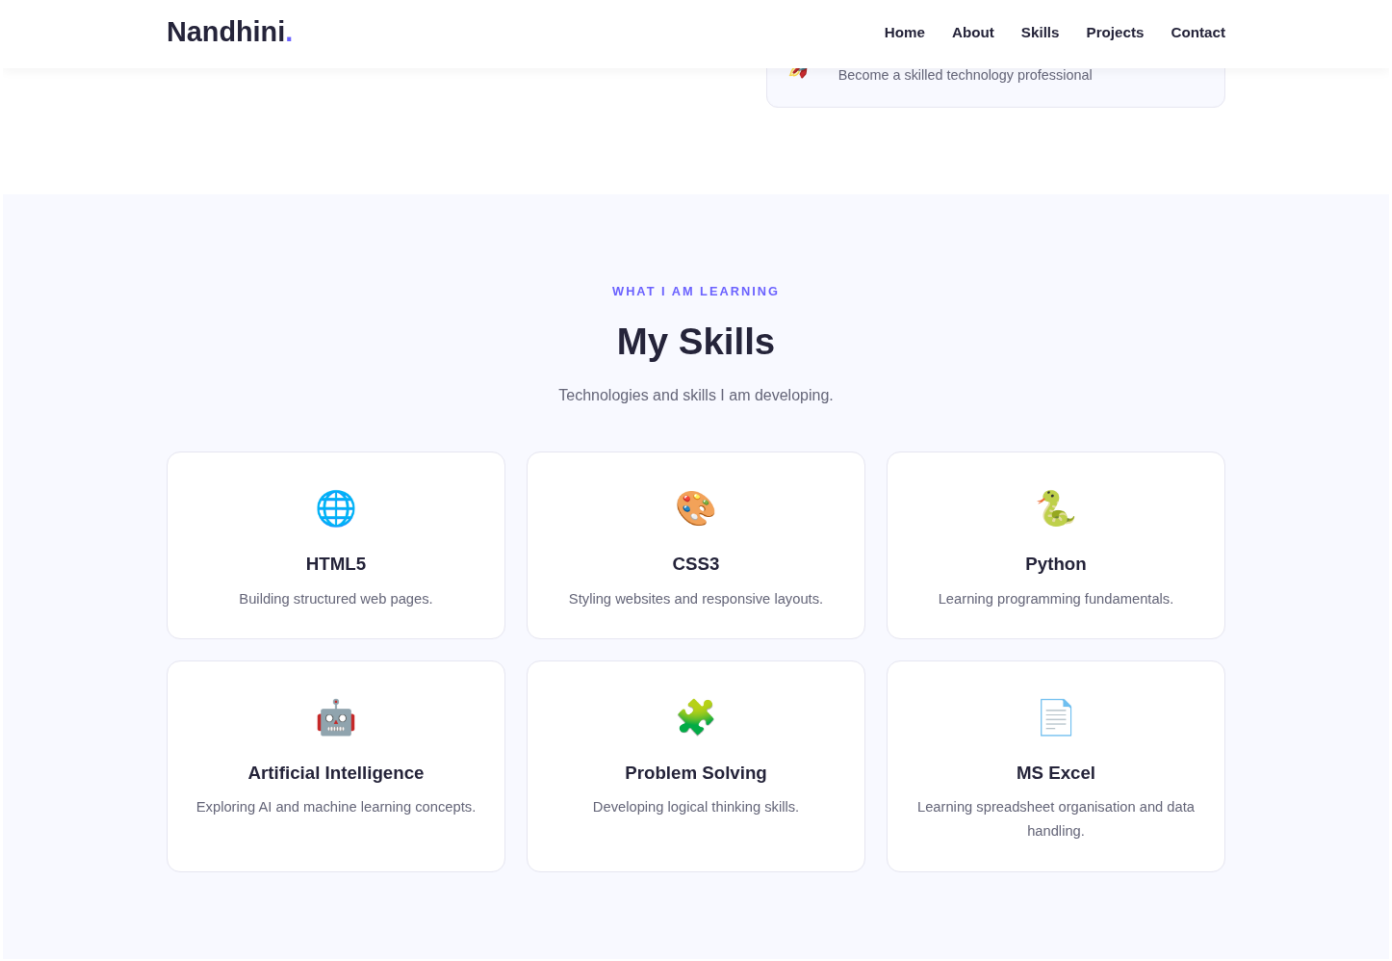

Desktop viewport: 1440 x 1000 pixels.

3.2 Desktop Screenshot - About

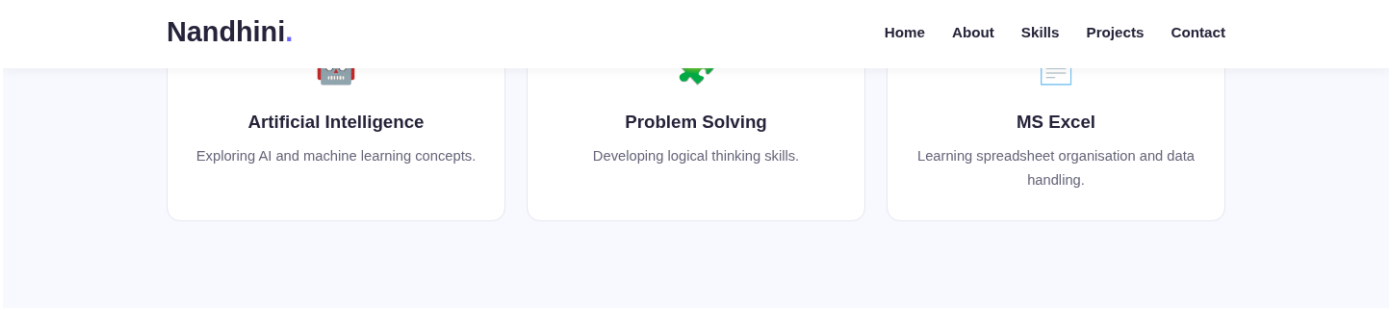

About section with education, interests, and career goal cards.

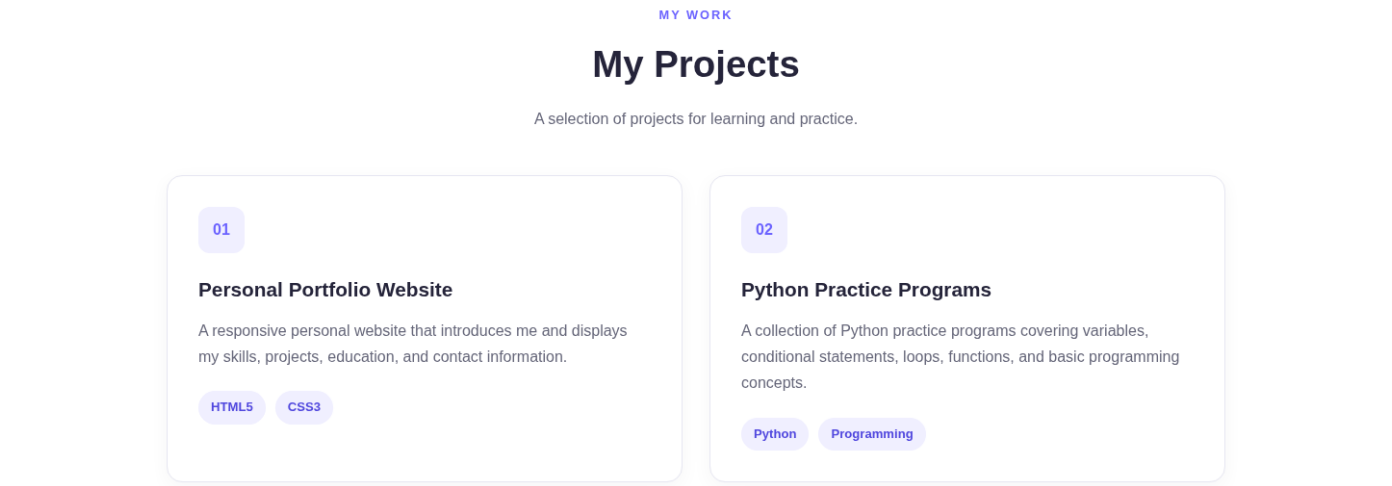

3.3 Desktop Screenshot - Skills

Three-column skills grid displayed on desktop.

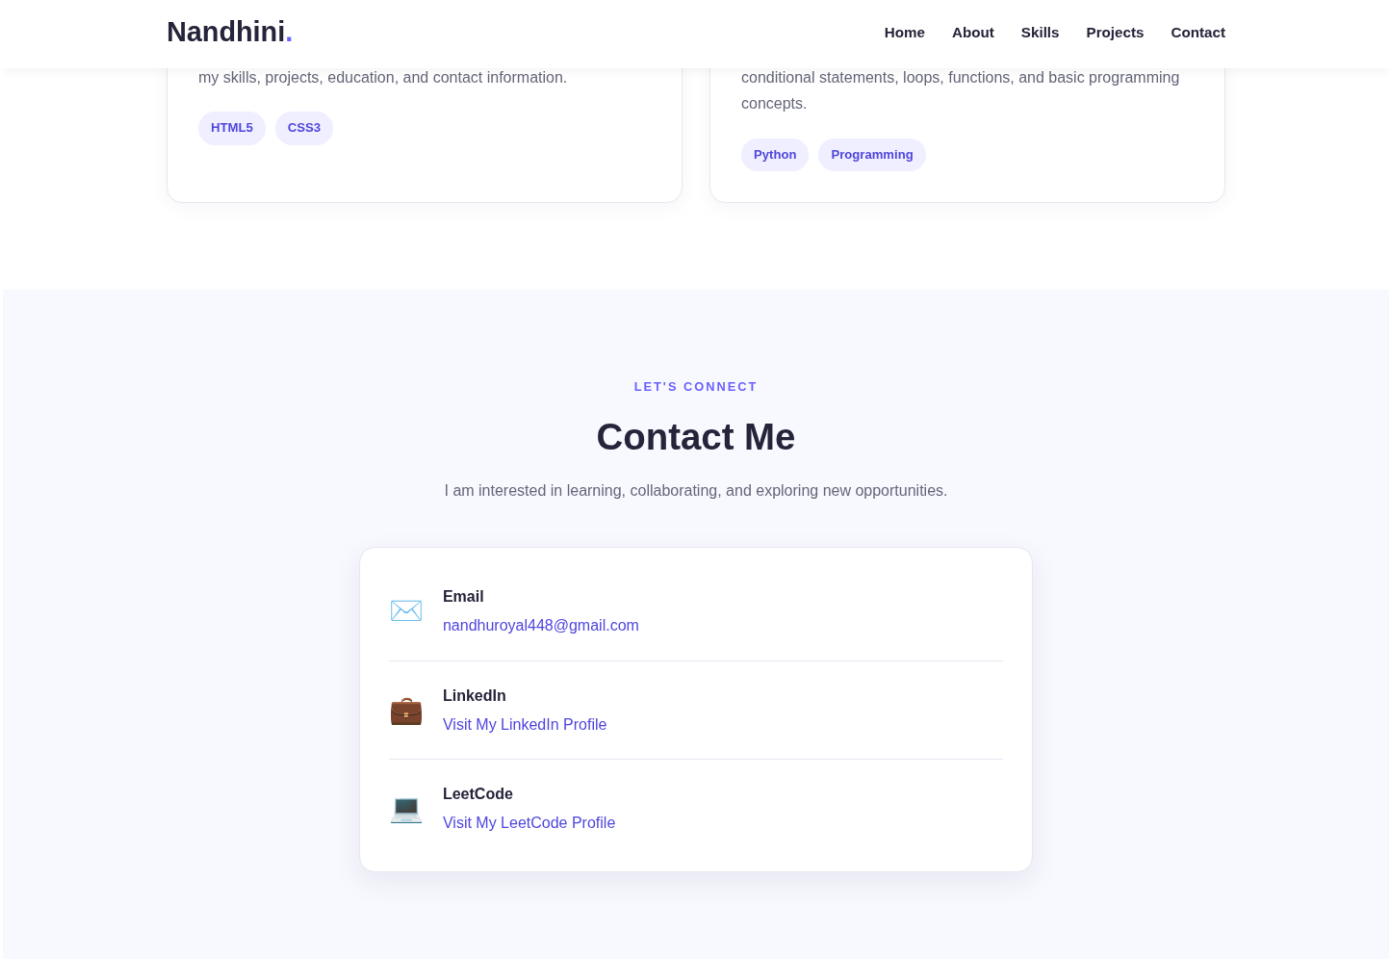

3.4 Desktop Screenshot - Projects

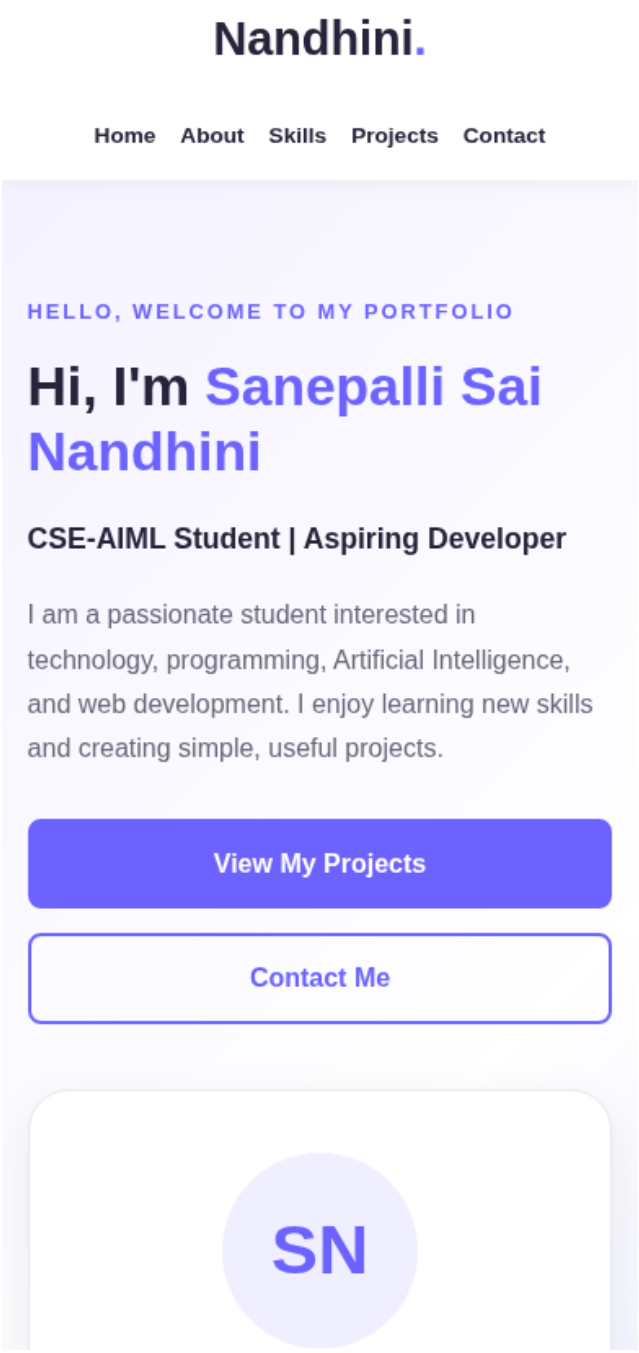

Project cards and technology tags.

3.5 Desktop Screenshot - Contact

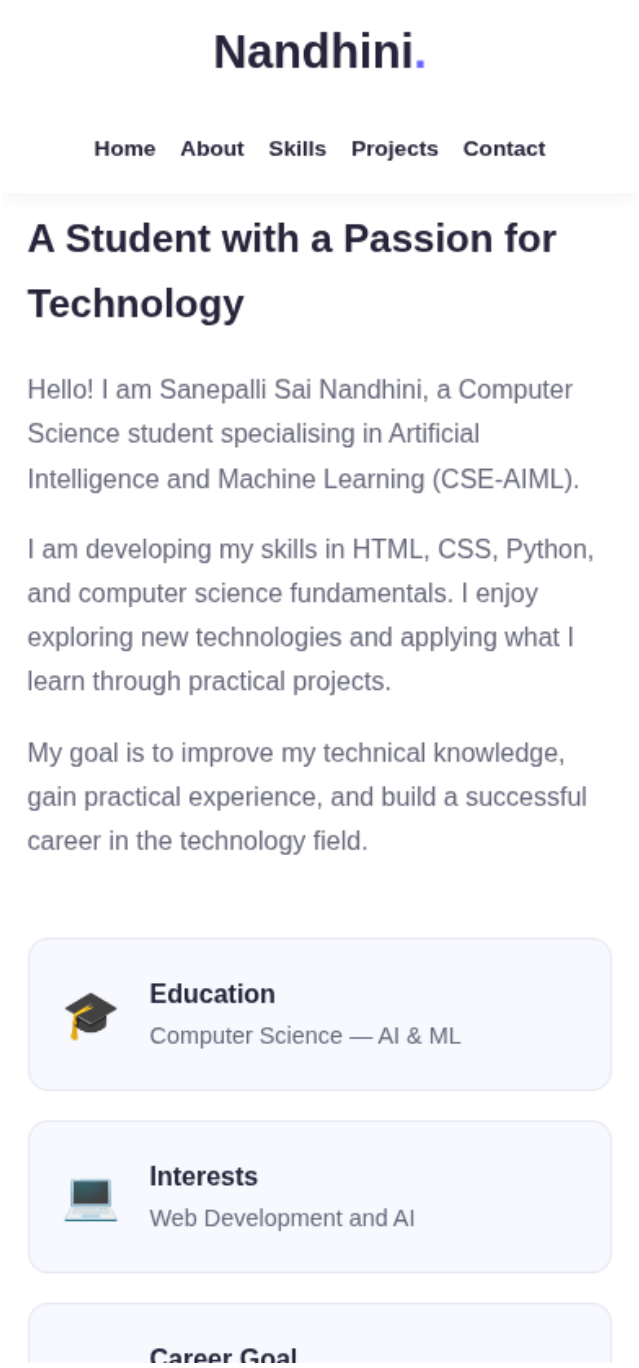

Contact section with email, LinkedIn, and LeetCode links.

4.1 Mobile Screenshot - Home

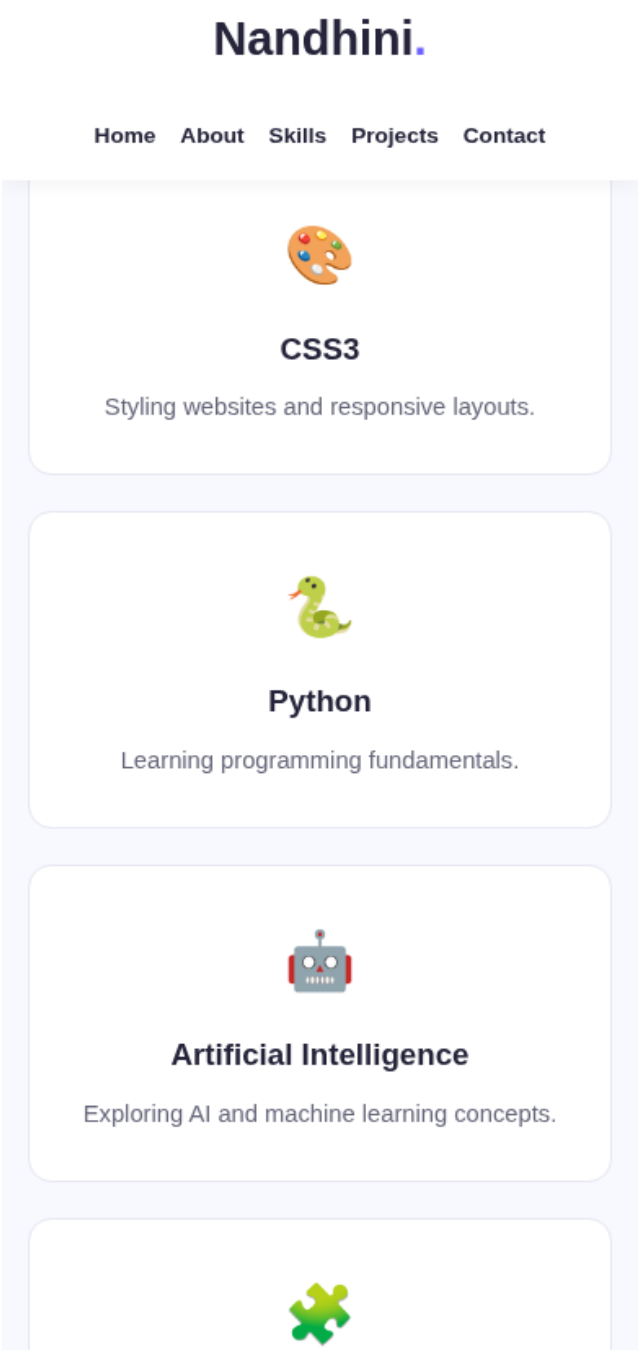

Mobile viewport: 390 x 844 pixels; navigation and hero content stack vertically.

4.2 Mobile Screenshot - About

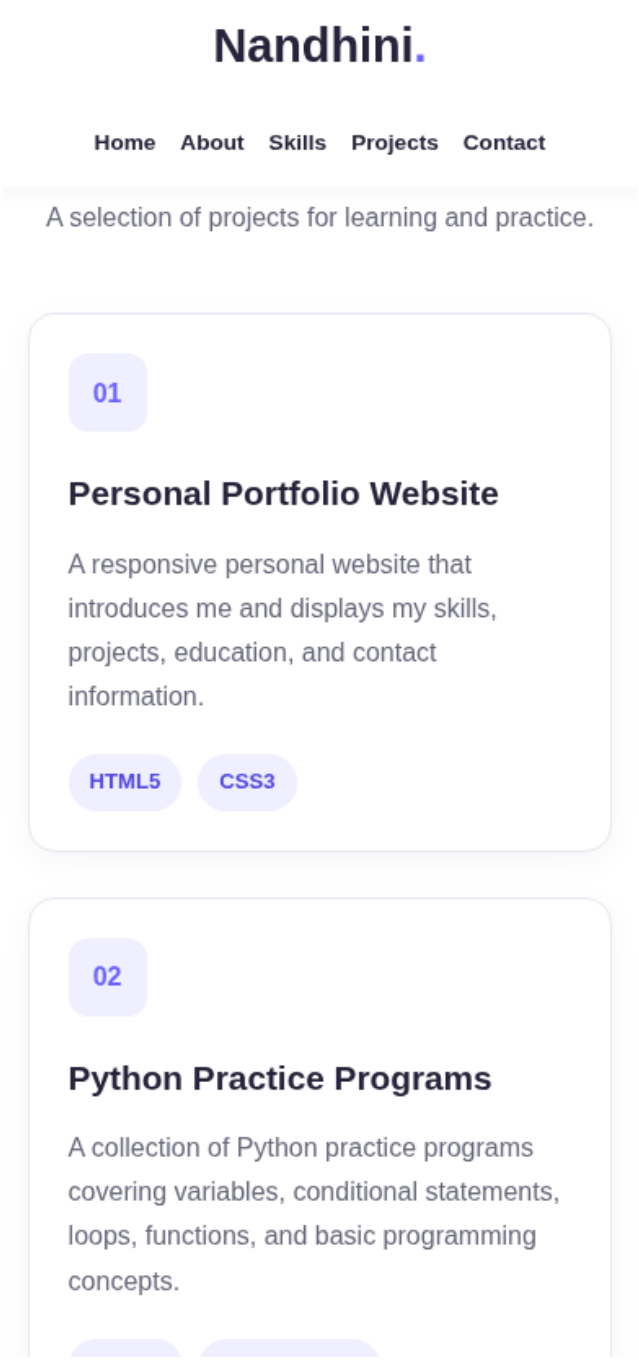

About text and detail cards flow into a single column.

4.3 Mobile Screenshot - Skills

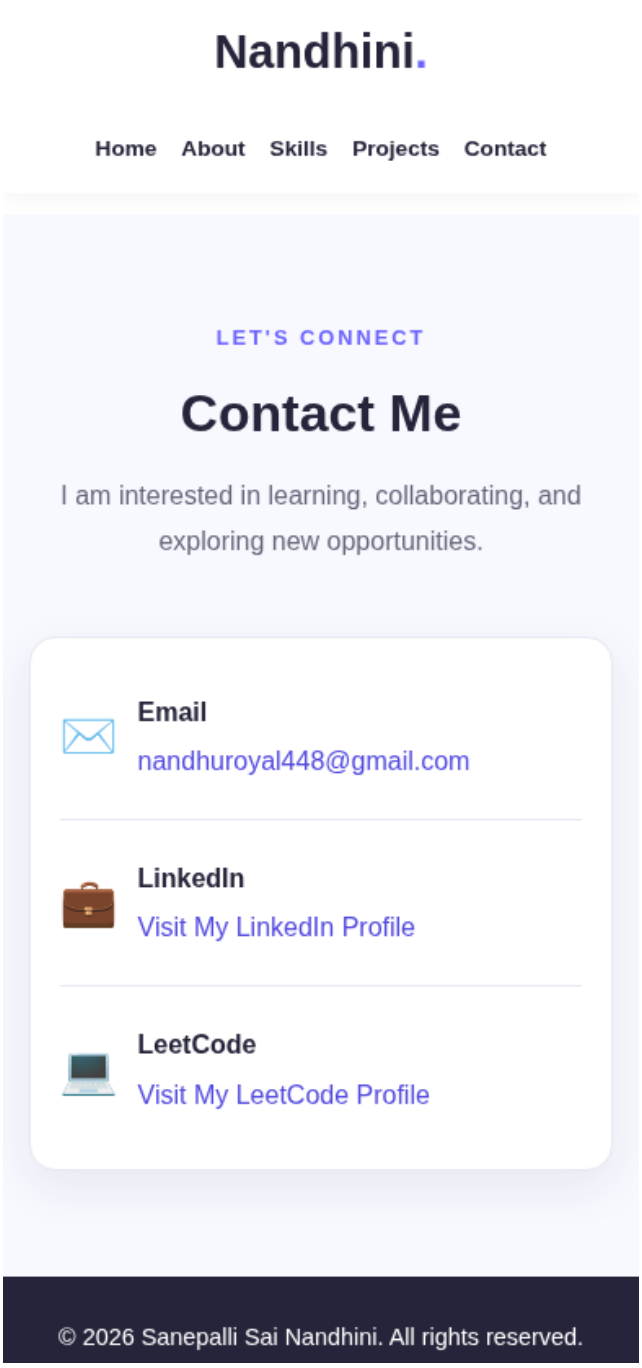

Skills section adapts to the narrow mobile viewport.

4.4 Mobile Screenshot - Projects

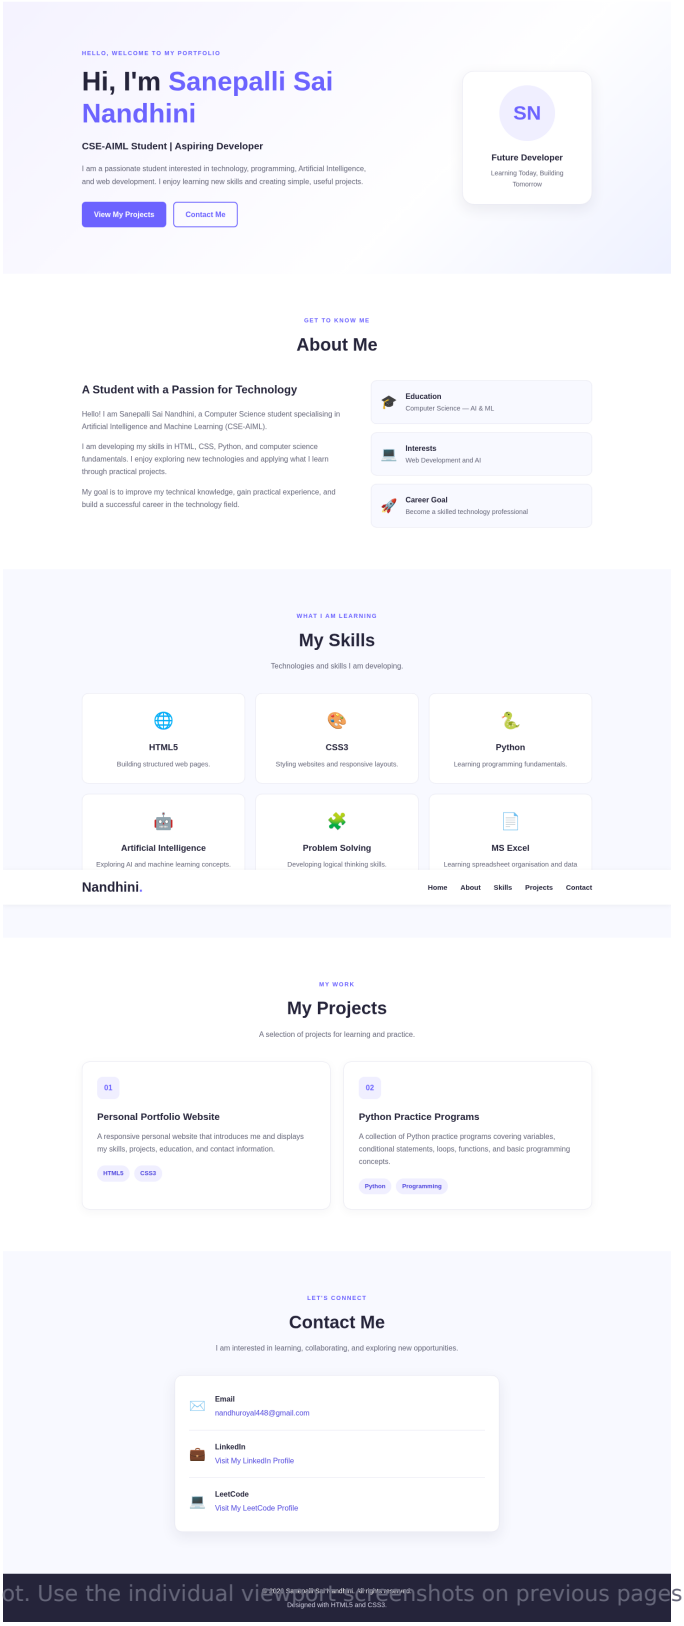

Project cards are displayed in a single-column layout.

4.5 Mobile Screenshot - Contact

Contact details remain visible and links wrap for mobile screens.

5. Full Website Overview

Full desktop page screenshot. Use the individual view pages for screenshots on previous pages to inspect section details.

6. Complete HTML Source - index.html

The original index.html is included unchanged in the ZIP package. In this PDF, emoji icons are represented using HTML numeric character references so they remain readable in code listings.

8. Submission Checklist

1. index.html and style.css are included in the source ZIP.
2. Desktop screenshots cover Home, About, Skills, Projects, and Contact.
3. Mobile screenshots cover Home, About, Skills, Projects, and Contact.
4. The website uses HTML5 and CSS3 only, in line with the project brief.
5. Confirm all personal links and contact details are correct before making the website public.
6. The project brief listed 16 October 2026 as the submission deadline. Confirm with the internship coordinator whether late submissions are accepted.

End of portfolio project PDF.
